Contents of Volume 27 (1993)

Vol. 27, No. 1

A. Fielding: Scoring functions for ordered classifications in statistical analysis 1
W.L. Francis and E.G. Carmines: Making measurement errors and interpreting path coefficients: a practical perspective 19
E. Dammers: Measurement in the ex post evaluation of forecasts 31
G.F. Thompson: Causality in economics: rhetorical ethic or positivist empiric? 47
C. van Rij and W. Saris: Time dependency of trade union membership 73
Note:
W.V. Gehrlein: Condorcet efficiency of two stage constant scoring rules 95

M.J. Holler: Nash equilibrium reconsidered and an option for maximin (*republication*) 103

Vol. 27, No. 2

B. Schmeikal-Schuh: Logic from space 117
A. Lomi: A semiparametric random effects approach to unobserved heterogeneity in count data models of organizational founding 139
S. Campostrini and D.V. McQueen: The wording of questions in a CATI-based lifestyle survey: Effects of reversing the polarity of AIDS-related questions in continuous data 157
J.K. De Vree: Power and the dynamics of behavior 171
Notes:
D. Lester: The influences of society on suicide 195
A.-D. Correa, J. Díaz, E. Suárez, and B. Hernández: Multidimensional scaling reliability in similarity judgments about environmental sentences 201
P.G. Swanborn: External validity abandoned? 211
M. Hammersley: Abandoning internal and external validity: A response to Swanborn 217

Vol. 27, No. 3

J. Reinecke and P. Schmidt: Explaining interviewer effects and respondent behavior: Theoretical models and empirical analysis 219
J.A. Cobas, M. Aickin, and D.S. Jardine: Industrial segmentation, the ethnic economy, and job mobility: The case of Cuban exiles in Florida 249
R.B. Smith: The paradox of gender voting: An exploratory analysis 271
S.I. Miller: Some comments on the possibility of "Methodological Indeterminacy" 291
Note:
A. Khurshid and H. Sahai: Scales of measurements: An introduction and a selected bibliography 303

Vol. 27, No. 4

O. Dahlbäck: Analyzing judicial discrimination 325
J. Hendrickx, N.D. De Graaf, J. Lammers, and W. Ultee: Models for status inconsistency and mobility: a comparison of the approaches by Hope and Sobel with the mainstream square additive model 335
T. Raykov: On estimating true change interrelationships with other variables 353
M. Burgin and V. Kuznetsov: Properties in science and their modelling 371
B.N. Mukherjee: Toward a rapprochement between the two basic paradigms of educational research 383
A. Seitz: The political dimension of intercultural research – the Australian experience 411
Note:
D.D. Brewer: Multiple ranking tasks in a semantic domain: an investigation of task order effects 421
Author index 439
